The Associate of Science in Information Systems Development (AScISD) has organized a BBQ gathering on October 17, 2013. The aim of this activity is to provide ISD students to share their experience on learning and articulation. This gathering is well-received by 58 ISD students.

The Programme Leader of ISD, Dr. Desmond Tsoi, the Programme Leader of NSA, Dr. Timothy Kwong, and the programme team member, Mr. K. K. Tang, were invited to share their experience on teaching and learning. Through this event, students were all able to identify the advantages and disadvantages of adopting different learning approaches on their study. We believe that this could help students enhance their academic performance in the upcoming period staying with AST, CCCU.

Acknowledgement: This activity is sponsored by CCCU Local Co-curricular Activity Fund.
Last but not least, we would like to thank the following students for their support on making the BBQ gathering joyful and fruitful.
